	...%		...%			...%			...%	

Building & Energy

Reduce gas & electricity energy use, emissions & costs.

Audit energy & implement Energy Policy.	Switch to even greener energy tariffs.	Retrofitting initiatives (depending on available funds).					Upgrade heating, cooling & heat recovery systems.		
		Complete LED installation & install motion sensors.	Improve IT settings.	Install solar panels.	Improve insulation.	Install double glazing in some areas.			

Water

Reduce water consumption & costs.

Audit water & implement Water Policy.	Install more water-efficient technologies.	Feasibility studies on Rainwater Harvesting Installations.	Installation of Rainwater Harvesting applications.
---------------------------------------	--	--	--

Waste

Decrease waste by avoiding altogether, reducing & recycling. Avoid single use plastic across all areas of the organisation.

Instil a culture of recycling across all areas of the organisation. Maximise opportunities for recycling and connect with other organisations to improve efficiency.			
Audit waste & implement Waste Policy.	Align waste management contractor with SAIL*.	Single-use plastic pledge.	Link into collective purchasing system and database with SAIL*.

Travel

Reduce use of fossil fuels for business travel. Support & promote sustainable travel options to staff, building users & audiences.

Implement Travel Policy for business travel.	Audit staff daily travel & business travel.	Install cycle parking / storage.	Audit audience travel & implement Audience Communication Strategy.
--	---	----------------------------------	--

Nature Capital

Source more sustainable products & services. Create more green spaces in (and around) premises.

Implement Sustainability Procurement Policy.	Source capacity to research & better understand our carbon footprint.	Join Carbon Offset Club.	Feasibility Studies on green rooftops & green walls.	Installation of green rooftops & green walls.
--	---	--------------------------	--	---

Community

Embed environmental themes & engagement in community & artistic programmes. Develop environmental collaboration with partners.

Develop & run engagement/educational campaigns with & for audiences, staff & partners. Produce our festivals, conferences & events to be more environmentally conscious.		
Spotlight sustainability on social media channels.		
Introduce Environmental Trustee on Board of Directors.	All staff to complete Carbon Literacy Training.	Support our freelance workforce to become carbon literate.

**SAIL is a not for profit Membership Network of organisations and individuals in the creative and cultural sector, who have come together to take action on the Climate Emergency (wearesail.org).*
